Il seguito di Tre metri sopra il cielo. Perché nessuna storia finisce mai davvero. E a volte si trasforma in ciò che non avresti mai potuto immaginare. Step è partito e sta per tornare. Sta per scoprire che niente è mai uguale a come lo avevi lasciato. O meglio, a come ricordavi che fosse. Così tutto cambia e rivela la sua vera faccia. Step sulla sua moto per le strade di Roma, ritrova la banda dei Budokani, cresciuta e forse diversa. Schello, Lucone e gli altri, sempre ribelli ma un po ' più consapevoli... Il dolore lascia dei segni dentro, prima ancora che sulla pelle. Anche Babi troverà delle risposte. Step imparerà che non sempre, in amore, sappiamo ciò che vogliamo davvero. Anche quando ci sembra d ' essere sicuri. Scopriremo che il perbenismo è solo il tentativo inutile di rendere perfetto ciò che non lo è, che non può esserlo in nessun modo. Lo capirà sulla sua pelle la famiglia Gervasi. Scopriremo anche che il rapporto interrotto tra un figlio e sua madre può riservare risvolti inaspettati. E se tutto esplode e non va come doveva, c ' è sempre spazio per un sorriso e per ricominciare. Federico Moccia torna col suo stile diretto e intenso a mostrarci come il presente si intreccia sempre al passato, prima di diventare futuro. Un futuro non scontato. Perché nemmeno l ' amore lo è mai..

This book offers the first comprehensive study of recent, popular Italian television. Building on work in American television studies, audience and reception theory, and masculinity studies, Sympathetic Perpetrators and their Audiences on Italian Television examines how and why viewers are positioned to engage emotionally with—and root for—Italian television antiheroes. Italy ' s most popular exported series feature alluring and attractive criminal antiheroes, offer fictionalized accounts of historical events or figures, and highlight the routine violence of daily life in the mafia, the police force, and the political sphere. Renga argues that Italian broadcasters have made an international name for themselves by presenting dark and violent subjects in formats that are visually pleasurable and, for many across the globe, highly addictive. Taken as a whole, this book investigates what recent Italian perpetrator television can teach us about television audiences, and our viewing habits and preferences.

Studying Language through Literature invites readers to reconsider the opportunity represented by literary texts for language-related purposes. Despite the close relationship between literature and language in educational contexts, literature is frequently associated with teaching practices which have been judged to be unsuccessful. Subsequently, texts of the non-literary type are preferred, on the basis that they are ' authentic ' and closer to ' real ' language. The everlasting relationship between language and literature is here reassessed starting from two assumptions: literature is the expression of an emphasized perception of reality – be it private, collective, or pertaining to a certain temporal/spatial context; and literary language is language in its utmost form. Following an outline of the philosophy that governs the book, each chapter presents specific insights on the use of the various different literary genres: namely, fiction, poetry and drama. The opportunities offered by translation in the foreign language classroom constitute a recurrent theme throughout the book, although Chapter 5 is entirely devoted to translation criticism. The closing pages put forward a few reflections on assessment. While offering some food for thought in order to reassess the role of literature in the language class, this book puts together ideas, considerations and suggestions from which the reader is free to pick, mix and adjust, exploiting them to her/his greatest benefit.
