Executives are elected to lead and make tough decisions, and such leadership cannot be outsourced to health bureaucrats like Fauci. ” —Florida Governor Ron DeSantis It wasn ’ t too long ago that the average American didn ’ t know who Anthony Fauci was. Now, after the coronavirus has spread nationwide, he ’ s arguably the most powerful bureaucrat in American history. But is it dangerous for a free society to concentrate so much power in the hands of an unelected official? Who or what holds Fauci accountable? “ Steve Deace is a true patriot whose zeal for liberty is undeniable. Every day, Steve walks the walk when it comes to fighting for Americans' fundamental rights. This book is written with a keen understanding of the pain and devastation we've all seen throughout this pandemic. Throughout, Steve's passion for protecting Americans' freedoms is ever-present. ” —U.S. Senator Ted Cruz (TX)

“ This is an important book, to both get answers to how we got here and to help us never succumb to something like this ever again. Permitting unelected bureaucrats to hold this much power indefinitely doesn't end well. ” —Mark Levin, New York Times best-selling author and talk show host “ In their typical fashion, Steve Deace and Todd Erzen spare no expense in pursuit of truth. We ’ ve been told a lot of things during this pandemic, and a lot of them contradict each other. This book uses documented data and sources to cut through the clutter, most of it Fauci ’ s, and bring us to a place of reason and science. ” —Glenn Beck, New York Times bestselling author and Radio Hall of Fame broadcaster
