Norway, titled "Portable Document Format." The show was organized as an idiosyncratic retrospective, with Keegan remaking sculptures dating from 2006 to 2015, initially fabricated in Sheetrock and steel, in cardboard. Like the exhibition, the publication serves both as a project and a reference for the artist's work. Essays by Tom McDonough and John Miller theorize Keegan's production, while interviews with Sara VanDerBeek and Anna Craycroft underscore the artist's ongoing engagement with his peer group. Furthered by contributions from colleagues Uri Aran, Leslie Hewitt and James Richards, situated alongside full-color installation photos and reproductions of work
