"Touchstone is an innovative four-level series for adults and young adults, taking students from beginning to intermediate levels (CEFR: A1-B2). Based on research into the Cambridge English Corpus, Touchstone teaches English as it is really used. It presents natural language in authentic contexts, and explicitly develops conversation strategies so learners speak with fluency and confidence."---Page 4 of cover.

Taking a holistic approach to developmental reading, ACTIVATE: COLLEGE READING is the first book in a 3-book series. It guides students through a stepped and incremental approach, activating background or prior knowledge as many of the skills students need to become stronger readers are skills they already possess and use on a daily basis. Often using popular media as a springboard, Dole and Taggart show students how the skills used when watching television or movies can easily transfer to their reading. Reviewers have lauded the inclusion of varied, interesting readings that will stimulate students' interest in reading and will provide them with background knowledge needed for future college courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
