The Dept. of Vet. Affairs, Office of Insp Gen. reviewed allegations of salary and expense account over-expenditures, overtime abuses, and fiscal mismanagement in the Office of Congressional Affairs. During the audit, additional complaints were raised concerning: employee favoritism, creation of a polarized work environment, mismanagement of consultant contracts, improper reimbursable interagency work details and temporary staff appointments, lack of controls over time and attendance records, purchase card mismanagement, inappropriate use of gov t. travel cards, assign. of unnecessary pagers to staff, poor position mgmt., and other inefficient workload processing issues. This audit substantiated the allegations.

## Read Book Audit In An Age Of Intelligent Machines

At a time when increased independence requirements for auditors, legal backing for auditing standards, and increased audit documentation requirements have occurred, this book examines key issues in the market for audit services in Australia. It investigates issues including: the understandability of audit and the state of the audit expectations gap; auditors' business acumen and industry expertise; the auditors' use of materiality; whether or not the increasingly prescriptive nature of auditing is creating a distraction from the 'real' audit task and stifling auditors' judgement; whether or not CLERP 9 reforms involving audit partner rotation and restrictions on non-audit service provision are efficient and effective and reactions to the increasing scrutiny of auditors and audit firms by regulators. With its thorough coverage of contemporary issues, this book intersperses the authors' summaries, interpretations and recommendations with the perceptions, expressed in their own words in order to faithfully convey their candid assessments, of users of audit reports, purchasers and suppliers of the audit product, auditing standard setters and regulators of the audit market.

The new vol. 3 of the GAO and the President's Council on Integrity and Efficiency (PCIE) Financial Audit Manual (FAM). GAO and the PCIE issued the joint FAM in July 2001. The FAM presents a methodology to perform financial statement audits of fed. entities in accordance with professional standards. GAO has updated the FAM for significant changes that have occurred in auditing financial statements in the U.S. govt. since the last major revisions to the FAM were issued in July 2004. These checklists are tools that may be used by entities and auditors to document conformity with U.S. generally accepted accounting principles (U.S. GAAP).
