The International General Certificate of Secondary Education is an English language based examination similar to GCSE and is recognized in the UK as being equivalent to the GCSE for the purposes of recognizing prior attainment. It was developed by University of Cambridge International Examinations. The examination boards Edexcel and Oxford AQA also offer their own versions of International GCSEs.

In this paper we demonstrate that finite linear combinations of compositions of a fixed, univariate function and a set of affine functionals can uniformly approximate any continuous function of n real variables with support in the unit hypercube; only mild conditions are imposed on the univariate function. Our results settle an open question about representability in the class of single hidden ...
