years working with pre-school children. She says, "There has been much thought, care, understanding, laughter and joy that has gone into creating these books. I can only hope that they will bring children many 'magical moments' of learning, and spending time with each other in a happy and relaxed frame of mind." Two Important Factors While planning any activity for children, two important principles of learning are always uppermost in her mind: 1. "I see and I remember." 2. "I do and I understand." She has designed these books to develop differentiating and logical thinking skills in children and evaluate their interests in certain areas, without making them feel like they are being 'tested'! How BEE CLEVER books are DIFFERENT - Objects illustrated are those a child is generally familiar with. - Instructions can be read to a child without having to simplify them. - Illustrations are bold and clear for the child to see and work comfortably. - Accurate use of grammar, punctuation and spelling. - Each book in the series explains the value of doing that specific activity. - Simple 'Do's and Don'ts' create a 'win-win' situation for the child.
