Broadway musicals are one of America's most beloved art forms and play to millions of people each year. But what do these shows, which are often thought to be just frothy entertainment, really have to say about our country and who we are as a nation? Now in a new second edition, The Great White Way is the first book to reveal the racial politics, content, and subtexts that have haunted musicals for almost one hundred years from Show Boat (1927) to Hamilton (2015). This revised edition includes a new introduction and conclusion, updated chapters, as well as a brand-new chapter that looks at the blockbuster musicals The Book of Mormon and Hamilton. Musicals mirror their time periods and reflect the political and social issues of their day. Warren Hoffman investigates the thematic content of the Broadway musical and considers how musicals work on a structural level, allowing them to simultaneously present and hide their racial agendas in plain view of their audiences. While the musical is informed by the cultural contributions of African Americans and Jewish immigrants, Hoffman argues that ultimately the history of the American musical is the history of white identity in the United States. Presented chronologically, The Great White Way shows how perceptions of race altered over time and how musicals dealt with those changes. Hoffman focuses first on shows leading up to and comprising the Golden Age of Broadway (1927–1960s), then turns his attention to the revivals and nostalgic vehicles that defined the final quarter of the twentieth century. He offers entirely new and surprising takes on shows from the American musical canon—Show Boat (1927), Oklahoma! (1943), Annie Get Your Gun (1946), The Music Man (1957), West Side Story (1957), A Chorus Line (1975), and 42nd Street (1980), among others. In addition to a new chapter on Hamilton and The Book of Mormon, this revised edition brings The Great White Way fully into the twenty-first century with an examination of jukebox musicals and the role of off-Broadway and regional theaters in the development of the American musical. New archival research on the creators who produced and wrote these shows, including Leonard Bernstein, Jerome Robbins, Stephen Sondheim, and Edward Kleban, will have theater fans and scholars rethinking forever how they view this popular American entertainment.

The new edition of Arkfeld's Best Practices Guide: Information Technology Primer for Legal Professionals, is a resource for understanding the "information technology infrastructure" of organizations, locating "electronically stored information" (ESI), and managing it using computer technology. 'Awesome. Everything you've ever wanted to know about big-screen sci-fi' - James King, film critic 'Don't leave Planet Earth without it' - Dan Jolin, film critic 'A wonderfully accessible, fascinating, flat-out treasure chest of science fiction cinema, from an author whose love of the subject leaps off the page' - Simon Brew, Editor, Den of Geek Why do SF movies matter? What do they tell us about the interests of storytellers and the changing tastes of cinema-goers? How have SF movies evolved with filmmaking technology over the past 110 years? The Geek's Guide To SF Cinema provides an entertaining and in-depth history of the science fiction genre's pivotal and most influential movies. From the pioneering films of Georges Méliès to such blockbusters as Avatar and Inception in the 21st century, the book will explore how these key movies were made, how they reflected the mood of the time in which they were released and how they have influenced other filmmakers in the years since. Historians and experts contribute to answer questions such as: 'How important was Fritz Lang's contribution to cinema?' and 'What did Alien say about the cynical climate of the 1970s?'. Providing nostalgia for long-time SF addicts and context for those whose knowledge and love of the genre is still growing, this is a pop-culture book with depth.

A comprehensive critical reference guide for film, video, and DVD discusses both popular movies and independent and international movies; reviews more than ten thousand films, including films from more than fifty countries; offers five different indexes--by star, director, theme, genre, and national origin--and more. Original. 25,000 first printing.

In this succinct text, Jonathan Michaels examines the rise of anti-communist sentiment in the postwar United States, exploring the factors that facilitated McCarthyism and assessing the long-term effects on US politics and culture. McCarthyism:The Realities, Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life, giving readers a rich understanding of this era of postwar American history. Including primary documents and a companion website, Michaels' text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War.

Areas including the US mail, production and packaging, brand names and characters, radio and television, and expositions and the Olympics. A final chapter covers how collectors can develop their own dating system. Paul is a longtime collector and display designer based in Baltimore.
