The Ambassador of God provides exhaustive and in-depth answers to very difficult questions about our cosmic origin and the planet earth. Almost everything to do with the Sun, Moon, Stars, Water, Mars, Jupiter, Aliens... and most importantly - God About the book and author

_____ God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the

identity of the creator behind the origin of our universe can be known for certain? What if... This is what The Ambassador of God, a ground breaking look at our cosmic origin, has provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical narratives for our cosmic origin, The Ambassador of God uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, The Ambassador of God provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Readers seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey-an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a

formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his tender years and for more than 12 years, he abandoned this dream. ...Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story-where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." The Ambassador of God, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. The Ambassador of God aims to open discussion and understanding at the broadest possible level. It is written for everyday people.

If you have never failed your PT Test, then this little book is not for you. Sorry, save your money and go buy a Monster instead. If I have recently failed, concerned about an upcoming assessment, want to get leadership off your back, tired of bad advice that doesn't work from people who have never failed, never want your PT Test to interfere with your career ever again, just plain frustrated, or have troops that have failed, keep reading! I have gone from failing and being in "the program" to ending my career with a 97.5. My goal is to produce the same results for all the Airmen out there, who are struggling with the PT Test, themselves. This is not going to turn you into a machine overnight. This not my version of P90X. This is not Weight Watchers. I am not going to sell you a magic drink powder. I am not going to ask you to join a network marketing or multi level marketing scheme. What

I am going to give you information and guidance. The Air Force Physical Fitness Assessment is broken down to three parts. Strength, Aerobic Endurance, and Waist Measurement. In this book I will give you unconventional methods to address each of these. I will help you Pass Your PT Test by covering the following:

- *Strength (push-ups and sit-ups)- I can teach you how to improve these numbers drastically in 30 days by teaching you how to "grease the groove."
- *Aerobic Endurance (1.5 mile run)- This one isn't so easy. We will address ankle and foot mobility, running efficiency and training to specifically target your heart and lungs.
- *Body Composition (waist measurement)- This can be easy but in most cases we really need to spend some time on this. We will cover food addiction, inflammatory foods and stress management.

Although I am retired, I still want to serve. The best way I see that's possible is to apply my years of research and experience to helping Airman never let the PT Test get in the way of a 5 EPR, promotion, or assignment ever again.
