## Interqual Criteria

Meeting Interqual usually requires two separate sets of criteria: Severity of Illness (SI): documentation of the ED diagnosis or diagnoses (not chief complaint). It is not enough to document the patient has shortness of breath; you must try to describe how sick the patient is. For instance, for a CHF exacerbation, you

## Interqual Criteria

**Guidelines** is a set of criteria used to determine if a patient's hospital length of stay is appropriate. The criteria is based on the diagnoses and any treatments involved in the patient's care. It is a guideline used by IPA's that are supposed to save money by preventing unnecessary bed days. Ginger35
