The BMW M30 is a SOHC straight-six petrol engine which was produced from 1968 to 1995. With a production run of 27 years, it is BMW's longest produced engine and was used in many car models. The first models to use the M30 engine were the BMW 2500 and 2800 sedans. The initial M30 models were produced in displacements of 2,494–2,986 cc (152.2–182.2 cu in), with later versions having ...

BMW M30 - Wikipedia
The first run of the engine was on September 6, 2002. In early 2003 the MT30 was selected to power the Royal Navy future aircraft carriers (CVFs) and the demonstrator of the US Navy's DD(X) multi-mission destroyer. In June 2004 Lockheed Martin awarded the engine contract to the MT30 for its Littoral combat ship design. In 2012 the company repackaged the MT30 so that it would fit into smaller ...

This page tries to describe the flavour of G-codes that the RepRap firmwares use and how they work. The main target is additive fabrication using FFF processes. Codes for print head movements follow the NIST RS274NGC G-code standard, so RepRap firmwares are quite usable for CNC milling and similar applications as well.See also on Wikipedia's G-code article.

The study of linguistic variation in the Caribbean has been central to the emergence of Pidgin and Creole Linguistics as an academic field. It has yielded influential theory, such as the (post-)creole continuum or the 'Acts of Identity' models, that has shaped sociolinguistics far beyond creole settings. This volume collects current work in the field and focuses on methodological and theoretical innovations that continue, expand, and update the dialog between Caribbean variation studies and general sociolinguistics.
