Real examples. Real companies. Real business decisions. Covering the core economics principles and providing engaging, relevant examples within just nineteen Chapters, Hubbard Essentials of Economics is the perfect teaching and learning resource for a one semester unit. The authors present economics as a dynamic, relevant discipline for Australasian students. The key questions students of first year economics ask themselves are: "Why am I here?" and "Will I ever use this?" Hubbard Essentials of Economics answers these questions by demonstrating that real businesses use economics to make real decisions every day. Each chapter of the text opens with a case study featuring a real business or real business situation, refers to the study throughout the Chapter, and concludes with An Inside Look—a news article format which illustrates how a key principle covered in the Chapter relates to real business situations or was used by a real company to make a real business decision.

These events are sufficiently important to be incorporated into the body of the text rather than just added as boxed-off features. In particular, they stress the lesson policymakers recently learned the hard way: What happens in the ever-expanding part of the financial system that does not involve commercial banks is of vital importance to the entire economy. This exciting text presents students with the underlying economic explanations of why the financial system is organized as it is and how the financial system is connected to the broader economy. Due to the overwhelming success of their principles of economics textbook, Hubbard and O'Brien have employed a similar approach in this textbook: They provide students with a framework that allows them to apply the theory that they learn in the classroom to the practice of the real world. 0133148688 / 9780133148688 Money, Banking, and the Financial System Plus NEW MyEconLab with Pearson eText -- Access Card Package consists of: 0132994917 / 9780132994910 Money, Banking, and the Financial System 0133020002 / 9780133020007 NEW MyEconLab with Pearson eText -- Access Card -- for Money, Banking, and the Financial System
