Return to the magic with Sabrina the Teenage Witch: The Magic Within 3! Sabrina and friends become caught up in the secrets of the Magic Realm, while friendships and relationships are put to the test in both the magical and mortal realms! Featuring the fan-favorite manga-style art and supernatural stories of the multi-talented Tania del Rio, Sabrina the Teenage Witch: The Magic Within 3 collects the Sabrina the Teenage Witch comic book issues #79-89.

This important collection brings together both established figures and new researchers to offer fresh perspectives on the ever-controversial subject of the history of witchcraft. Using Keith Thomas's *Religion and the Decline of Magic* as a starting point, the contributors explore the changes of the last twenty-five years in the understanding of early modern witchcraft, and suggest new approaches, especially concerning the cultural dimensions of the subject. Witchcraft cases must be understood as power struggles, over gender and ideology as well as social relationships, with a crucial role played by alternative representations. Witchcraft was always a contested idea, never fully established in early modern culture but much harder to dislodge than has usually been assumed. The essays are European in

scope, with examples from Germany, France, and the Spanish expansion into the New World, as well as a strong core of English material.

After discovering the nuances of the house, Ellen begins to embrace her new life as a witch with the promise that the house will cure her disease and fix her rotting body... From the author of Chibi Vampire comes the serialization of a new series, The Witch's House, released at the same time as Japan!

Tens of thousands of people were persecuted and put to death as witches between 1400 and 1700 – the great age of witch hunts. Why did the witch hunts arise, flourish and decline during this period? What purpose did the persecutions serve? Who was accused, and what was the role of magic in the hunts? This important reassessment of witch panics and persecutions in Europe and colonial America both challenges and enhances existing interpretations of the phenomenon. Locating its origins 400 years earlier in the growing perception of threats to Western Christendom, Robert Thurston outlines the development of a ‘persecuting society’ in which campaigns against scapegoats such as heretics, Jews, lepers and homosexuals set the scene for the later witch hunts. He examines the creation of the witch stereotype and looks at how the early trials and hunts evolved, with the shift from accusatory to inquisitorial court procedures and reliance upon confessions leading to the increasing use of torture.

Drawing on real historical documents but infused with the intensity of imagination, sly humor, and intellectual fire for which award-winning author Rivka Galchen ' s writing is known, *Everyone Knows Your Mother Is a Witch* is a tale for our time—the story of how a community becomes implicated in collective aggression and hysterical fear. The year is 1619, in the German duchy of Württemberg. Plague is spreading. The Thirty Years War has begun, and fear and suspicion are in the air throughout the Holy Roman Empire. In the small town of Leonberg, Katherina Kepler is accused of being a witch. An illiterate widow, Katherina is known by her neighbors for her herbal remedies and the success of her children, including her eldest, Johannes, who is the Imperial Mathematician and renowned author of the laws of planetary motion. It ' s enough to make anyone jealous, and Katherina has done herself no favors by being out and about and in everyone ' s business. So when the deranged and insipid Ursula Reinbold (or as Katherina calls her, the Werewolf) accuses Katherina of offering her a bitter, witchy drink that has made her ill, Katherina is in trouble. Her scientist son must turn his attention from the music of the spheres to the job of defending his mother. Facing the threat of financial ruin, torture, and even execution, Katherina tells her side of the story to her friend and next-door neighbor Simon, a reclusive widower imperiled by his own secrets. Provocative and entertaining, Galchen ' s bold new novel touchingly illuminates a society, and a family, undone by superstition, the state, and the mortal convulsions of history.

Despite the growing interest in Apuleius' *Apologia* or *Pro se de magia*, a speech he delivered in AD 158/159 to defend himself against the charge of being a magus, the only comprehensive study on this speech and magic to date is that by Adam Abt (1908). The aim of this volume is to shed new light on the extent to which Apuleius' speech reveals his own knowledge of magic, and on the implications of the dangerous allegations brought against Apuleius. By analysing the *Apologia* sequentially, the author does not only reassess Abt's analysis but proposes a new reconstruction of the prosecution's case, arguing that it is heavily distorted by Apuleius. Since ancient magic is the main topic of this speech, an extensive discussion of the topic is provided, offering a new semantic taxonomy of magus and its cognates. Finally, this volume also explores Apuleius' forensic techniques and the Platonic ideology underpinning his speech. It is proposed that a Platonising reasoning – distinguishing between higher and lower concepts – lies at the core of Apuleius' rhetorical strategy, and that Apuleius aims to charm the judge, the audience and, ultimately, his readers with the irresistible power of his arguments.

Witchcraft and magical beliefs have captivated historians and artists for millennia, and stimulated an extraordinary amount of research among scholars in a wide range of disciplines. This new collection, from the editor of the highly acclaimed 1992 set,

Articles on Witchcraft, Magic, and Demonology, extends the earlier volumes by bringing together the most important articles of the past twenty years and covering the profound changes in scholarly perspective over the past two decades. Featuring thematically organized papers from a broad spectrum of publications, the volumes in this set encompass the key issues and approaches to witchcraft research in fields such as gender studies, anthropology, sociology, literature, history, psychology, and law. This new collection provides students and researchers with an invaluable resource, comprising the most important and influential discussions on this topic. A useful introductory essay written by the editor precedes each volume.

This book contains three prolific essays by the world renown polish anthropologist Bronislaw Malinowski. First published in 1926, Magic, Science and Religion provides its readers with a seminal collection of texts exploring the concepts of magic, religion, science, rite and myth, detailing how they interlink to offer exciting and informative insights into the Trobrianders of New Guinea. A must-have for any students of anthropology and collectors of Malinowski ' s work, we are republishing this classic work with a new introductory biography of the author.
