The top of the box is a little more complicated - build it to look like the picture to the side (again, you can click it to see a larger version). Use the last two 8' long 2x4 boards for the sides, just like you did for the bottom piece. But for this one, you're going to put 1'9" pieces every foot, all along the boards.

Building a Grind Box for Skateboarding or BMX

Building a skate box is easy. Every beginner skateboarder should learn how to build a manual pad or grind box, like the one built in the photos below. When building this box, to make it as easy as possible for you, use the ideas you see in the side-notes. Otherwise, be prepared to have the tools and possible help needed for the job.
