Lab 9 - Momentum and Energy in a Collision

Print this page, record your answers on it, and show it to your lab TF at the start of your lab session. In the experiment you will analyze several 1-D collisions

Download Free Momentum Energy And Collisions Lab

Answer Key
to see whether momentum and/or kinetic energy are conserved.

We'll analyze three simulated collisions here using the same methods. Is momentum conserved in these collisions?

Momentum, Energy, and

Download Free Momentum Energy And Collisions Lab

Collisions (MBL) Pre-lab Assignment

The momentum and energy conservation rules for collisions can be written in a concise way as follows: In a collision in which the external forces can be neglected (a closed system),

Download Free Momentum Energy And Collisions Lab

Answer Key
momentum is conserved. This is almost always assumed in AP Physics problems. In elastic collisions only, kinetic energy is also conserved.

Energy and Momentum in Collisions - Softschools.com

Download Free Momentum Energy And Collisions Lab

The purpose of the lab is to prove that when a collision happens in a closed system (one that does not including any other force except than the force of momentum), the momentum before and after the collision are equal. The lab did not only prove the conservation

Download Free Momentum Energy And Collisions Lab

Answer Key, but it also proved that if momentum is the only calculation term, the percentage of elastic ability does not affect the law of conservation of momentum.
