Definition of Payment for Insurance. A company's property insurance, liability insurance, business interruption insurance, etc. often covers a one-year period with the cost (insurance premiums) paid in advance. The one-year period for the insurance rarely coincides with the company's accounting year. Therefore, the insurance payments will likely involve more than one annual financial statement and many interim financial statements.

Under Liabilities on the balance sheet, a separate entry should be made for the amounts due to the Insurance Companies from the trust account. By following this practice, the agency owner will have a better understanding of the status of the trust account, and it will help eliminate practices that will result in an illegality.
