Manual Mulligan

The Mulligan Concept of Mobilisation with Movement (MWM) is a unique manual therapy treatment approach combining mobilisation with active movement or function.

Fundamentally a patient's pain, restriction or functional loss is eliminated when appropriate mobilisation

File Type PDF

[Manual Therapy](#)

The Mulligan concept

File Type PDF Terapia Manual

Mulligan uses specifically directed mobilisations of the spine whilst it is in a weight bearing position. The aim of these mobilisations is to increase the pain free range of movement of the spine and affected limbs. The mobilisations are repeated until this outcome is achieved. The Mulligan concept has the following
