The EA111 series of internal combustion engines was initially developed by Audi under Ludwig Kraus leadership and introduced in 1974 in the Audi 50 and shortly after, in the original Volkswagen Polo. It is a series of water-cooled inline three- and inline four-cylinder petrol and diesel engines, in a variety of displacement sizes.

codes used around the world from 1947 to the late 2000s. This listing is sorted numerically, then alphabetically. Early Beetle and Transporter engines made before 1965 did not have a letter code, but rather just a consecutive number. These are listed here as beginning with '1', even though the highest non-letter engine number in ...
