In this engrossing memoir, one of the most controversial, influential, and inspirational figures in African politics today gives the full story of his crusade to save Kenya's natural resources, and specifically the African elephant--a crusade that set him against internal corruption, poverty, and dangerous criminals. Sometimes at the risk of his own life, Leakey's love of Kenya, and his convictions about the direction his country--and all of sub-Saharan Africa--must take to survive, have been unshakable. Wildlife Wars is the odyssey of an extraordinary man in an extraordinary land.

This lavishly illustrated guide to iconography explains through words and pictures the history, meaning, and purpose of Christian icons as well as the traditional methods that religious painters use to create these luminous, spiritually enlivened works of art. Solrunn Nes, one of Europe's most admired iconographers, illuminates the world of Christian icons, explaining the motifs, gestures, and colors common to these profound symbols of faith. Nes explores in depth a number of famous icons, including those of the Greater Feasts, the Mother of God, and a number of the better-known saints, enriching her discussion with references to Scripture, early Christian writings, and liturgy. She also leads readers through the process and techniques of icon painting, showing each step with photographs, and includes more than fifty of her own original works of art. Deeply inspiring and utterly unique, The Mystical Language of Icons will inform both those who are familiar with the rich tradition of religious art and those who are not. It also serves as a powerful devotional resource in its own right, one that Christians everywhere can turn to again and again. Book jacket.

Julia Kogan, a brilliant young violinist, teams up with opera-loving cop Larry Somers to solve the high profile murder of a famous opera conductor. In the process, Julia and Larry discover an opera house rife with with a dangerous web of secrets, intrigue, lethal rivalries, and danger.

Many significant problems in metaphysics are tied to ontological questions, but ontology and its relation to larger questions in metaphysics give rise to a series of puzzles that suggest that we don't fully understand what ontology is supposed to do, nor what ambitions metaphysics can have for finding out about what reality is like. Thomas Hofweber aims to solve these puzzles about ontology and consequently to make progress on four central metaphysical problems: the philosophy of arithmetic, the metaphysics of ordinary objects, the problem of universals, and the question of whether the reality is independent of us. Crucial parts of the proposed solution involve considerations about quantification and its relationship to ontology, the place of reference in natural languages, the possibility of ineffable facts, the extent of empirical evidence in metaphysics, and whether metaphysics can be properly esoteric. Overall, Hofweber defends a rationalist account of arithmetic, an empiricist picture in the philosophy of ordinary objects, a restricted form of nominalism, and realism about reality, understood as all there is, but idealism about reality, understood as all that is the case. He defends metaphysics as having some questions of fact that are distinctly its own, with a limited form of autonomy from other parts of inquiry, but rejects several metaphysical projects and approaches as being based on a mistake.

Invite the spirit of aloha into your kitchen with the greatest collection of Hawaiian recipes ever. This cookbook will introduce you to native dishes such as Huli Huli Chicken and Coconut Macadamia Nut Crisps. Scattered among the recipes are fascinating facts and photos that capture Hawai'i's unique history and culture. Over 300 favorite recipes from sixty-three of Hawai'i's leading cookbooks make up this extraordinary collection. These contributing cookbooks are listed in a special section along with ordering information--a treasure for anyone who collects cookbooks.

Get the most out of the latest iLife suite with this full-color, friendly guide! The iLife software suite from Apple is comprised of iPhoto, iMovie, iDVD, GarageBand, and iWeb, all of which assist with organizing, viewing, and publishing digital content such as photos, movies, music, and Web pages. A hardback, with premium lustre paper, to admire, show off or cut apart for wall decor. \_\_\_A book filled with miniature diorama photography, but it's so much more than that.A self portrait, a found identity, a tailored self. This book is the culmination of over a years worth of photos, planning, painting and soul searching, presented here as my full vision. It includes 84 images (65 from Monochrome, 15 from Polychrome, and 4 that serve as transitions between the 2 halves of the series), as well as full dollhouse images and accessory pages with the accessories printed to scale. There are also info pages on me as an artist and the 2 series halves as well as behind the scenes images. The book can be "read" either forward or backward.

A coverage of the Transputer Development System (TDS), an integrated programming environment which facilitates the programming of transputer networks in OCCAM. The book explains transputer architecture and the OCCAM programming model and incorporates a TDS user guide and reference manual.
